Petrogav International provides courses for participants that intend to work on onshore drilling and production platforms. Training courses are taught by professionals from the oil and gas industry with current knowledge and years of field experience. The participants will get all the necessary competencies to work on the onshore drilling rigs and on the onshore oil and gas rigs. It is intended also for non-drilling and non-production personnel who work in drilling, exploration and production industry. This includes logistics personnel, accounting, administrative and support staff, environmental professionals, etc. This course provides a non-technical overview of the phases, operations and terminology used on onshore oil and gas rigs. It is intended also for non-production personnel who work in the onshore drilling, exploration and production industry. This includes logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of production operations is required. This course will provide participants a better understanding of the issues faced in all aspects of drilling operations, with a particular focus on the unique aspects of offshore operations.
