Apprentices must achieve a Level 2 National Vocational Qualification (NVQ) to demonstrate competency in their chosen occupation. Learners will be assessed and this can take various forms: Synoptic end-test covering the knowledge and skills

A resource for students, providing training in construction crafts. It covers the Craft Certificate requirements, giving information that students need to pass their exam. It features exam style multiple-choice assessment questions, which provide extra support for revision and exam preparation.

The main subject areas covered are: Basic Skills, Surface Finishing, Finishing Components, Structural Components and Basic Joinery.

No further information has been provided for this title.

Written by a team of highly experienced tradespeople and trainers from Carillion Training Centres, this book contains information that you need to make a success of your carpentry and joinery course at Level 2. It is presented in a visual, full-colour format and is suitable for the Technical Certificate, as well as S/NVQ Level 2.

Written by best-selling author Peter Brett, this new full-colour edition has been fully updated to cover the revised carpentry and joinery qualifications.

Intended for the students who are prepared for the Level 2 SVQ/NVQ and Technical Certificate in Plastering. It features accessible, jargon-free style that is written with the needs of the Level 2 learner in mind, with learning broken down into manageable, bite-sized chunks to ensure accessibility of content every step of the way.

Ensure your learners have the knowledge and skills to start a successful career in the construction industry, with this comprehensive new textbook published in association with City & Guilds for the legacy 6706, new 7906 and new Apprenticeship standard. This brand new title will help students: - Study with confidence, using the most up-to-date information available for all specifications and industry standards - Enhance their understanding of concepts and techniques with clear and accurate technical drawings and step-by-step photo sequences - Test their knowledge with end of chapter practice questions - Get ready for the workplace with industry tips and activities - Develop core skills with authors Stephen Jones and Stephen Redfern, who draw on their extensive teaching and industry experience

This resource in the Nelson Thornes Construction NVQ series provides complete coverage of the Bench Joinery NVQ Level 2. It is aimed at those working or undergoing training as a carpenter and joiner. It covers the units: basic skills;

setting out for joinery; marking out for joinery; manufacture of joinery products; woodworking machines; and maintenance

Over the last decade as the importance of vocational qualifications has been firmly established, the system has become increasingly complex and hard to grasp. Now in its sixth edition, this popular and accessible reference book provides up-to-date information on over 3500 vocational qualifications in the UK. Divided into five parts, the first clarifies the role of the accrediting and major awarding bodies and explains the main types of vocational qualifications available. A directory then lists over 3500 vocational qualifications, classified by professional and career area, giving details of type of qualification, title, level, awarding body and, where possible, the course code and content. The third section comprises a glossary of acronyms used, together with a comprehensive list of awarding bodies, industry lead bodies, professional institutes and associations, with their contact details. Section four is a directory of colleges offering vocational qualifications in the UK, arranged alphabetically by area. Finally, section five is an index of all qualifications, listed alphabetically by title.

New edition of the popular Carpentry and Joinery Level 2 Candidate Handbook from Heinemann, fully updated with new content and precisely aligned to the CAA Diploma specification, providing learners with the right tools for job.
