About This is the organizational page for the Physics Introductory Labs portion of PHY 121 for Fall 2020. The scope of the introductory labs is to give an understanding of basic experimental methods applied in physical sciences. The experiments performed during the lab sessions are closely related to the

PHYS 121 SPRING
2019 - Google Sites

This course is the first part of the calculus-based introductory physics sequence. Its subject is mechanics, essentially the material covered in chapters 1-11

Where To Download Phys

and 13-14 of Young and
Feedman's University
Physics. The course
uses some basic calculus
and lots of algebra and
trigonometry. It does
not have a laboratory
component.

INTRODUCTORY PHYSICS II

This is the first of a
three-quarter sequence
of introductory calculus-

Where To Download Phys

121 based physics. You should find this course challenging and stimulating, and I hope that you also find it interesting and enjoyable.
