The Pocket Guide is the anti-Left Behind. Boyett writes with humor and insight, and accomplishes what must have been one of his main goals - to show that we just cannot know exactly how or when this world is going to end. Some things are hidden from us, and we need to believe that God has good reason in this.

The greatest leaders and geniuses in history were mischief makers. They were the brave women who looked at how unfair the world was and said, "I can do better than that." They were the stalwart men who saw stupidity and asked, "Why do we have to do it that way?" And they were the delightful children who ganged up on the neighborhood bully and hit him with wet noodles until he said, "Uncle!" Yes, history's mischief makers had the courage to point out that things like slavery, global warming, and turtleneck sweaters are bad. And they also pulled off some of the greatest hoaxes and practical jokes of all time. Their achievements include the Boston Tea Party, the "War of the Worlds" radio broadcast of 1938, and the Cheese Whiz Disaster of 2008. In honor of them, we introduce The Pocket Guide to Mischief, the perfect addition to any prankster's collection, as well as a fun-filled how-to for the budding troublemaker in all of us.

This handy guide is an almost indestructible how-to tool. It includes need-to-know information such as

Action is the surest path not only to reaching goals, but to finding the kind of meaning and purpose we desire. It is a kind of back door to the promises of so many philosophies and religions. When we are action-oriented, we forget to notice the missing pieces of our modern world: anomie fades away, change doesn't seem so wildly fast, the news becomes white noise. This book provides insights on how to take action more.

Abacadabra ! Hocus-pocus! Allakazam! Happis crappis! Say it together now-magic! Take a peek inside the magician's secret wardrobe to discover the tricks of the trade, the tales of derring-do, and the people who made the magic happen. Demystifying the mystical is the popular, raucous, ready-to-trick-his-own-mother Bart King! But what, you may ask, can Bart do? He can show the ways of the most secretive magicians in the world.

Part field guide, part history, part ornithology primer, and altogether fun. Fact: Pigeons are amazing, and until recently, humans adored them. We've kept them as pets, held pigeon beauty contests, raced them, used them to carry messages over battlefields, harvested their poop to fertilize our crops—and cooked them in gourmet dishes. Now, with *The Pocket Guide to Pigeon Watching*, readers can rediscover the wonder. Equal parts illustrated field guide and quirky history, it covers behavior: Why they coo; how they flock; how they preen, kiss, and mate (monogamously); and how they raise their young (on chunky pigeon milk). Anatomy and identification, from Birmingham Roller to the American Giant Runt to the Scandaroon. Birder issues, like what to do if you find a baby pigeon stranded in the park. And our lively shared story together, including all the things we've taught them—Ping-Pong, for example. "Rats with wings?" Think again. Pigeons coo, peck and nest all over the world, yet most of us treat them with indifference or disdain. So Rosemary Mosco, a bird-lover, science communicator, writer, and cartoonist

The author of Dad Humor offers an entertaining look at American history's geniuses, leaders, and dunderheads in a clever quest to define brilliance. With dry humor and a wealth of fascinating trivia, Bart King explores what it means for a person to be brilliant. What he discovers is that brilliant people are those who walk farther, think deeper, and talk louder than the rest of us. They do what it takes to get the job done—and then some. The masters of brilliance profiled here include presidential candidate John Lindsay, who released chickens into his opponent's crowd to spur on a debate; the first female journalist, Anne Newport Royall, who forced an interview with John Quincy Adams after catching him skinny dipping; and Benjamin Franklin, who of course coined the phrase "A penny saved is a penny earned," but also offered the lesser known "A man who lives on hope, dies farting."
