array of citizens became soldiers, and how the provisioning of material goods separated soldiers from civilians. Through a fascinating examination of leaflets, proclamations, newspapers, manuals, letters to and from the front, diaries, and interviews, *The Stuff of Soldiers* reveals how the use of everyday items made it possible to wage war. The dazzling range of documents showcases ethnic diversity, women's particular problems at the front, and vivid descriptions of violence and looting. Each chapter features a series of related objects: weapons, uniforms, rations, and even the knick-knacks in a soldier's rucksack. These objects narrate the experience of people at war, illuminating the changes taking place in Soviet society over the course of the most destructive conflict in recorded history. Schechter argues that spoons, shovels, belts, and watches held as much meaning to the waging of war as guns and tanks. In *The Stuff of Soldiers*, he describes the transformative potential of material things to create a modern culture, citizen, and soldier during World War II.

A long-awaited English translation of the groundbreaking oral history of women in World War II across Europe and Russia—from the winner of the Nobel Prize in Literature **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY** *The Washington Post* • *The Guardian* • NPR • *The Economist* • *Milwaukee Journal Sentinel* • *Kirkus Reviews* For more than three decades, Svetlana Alexievich has been the memory and conscience of the twentieth century. When the Swedish Academy awarded her the Nobel Prize, it cited her invention of “ a new kind of literary genre, ” describing her work as “ a history of emotions . . . a history of the soul. ” In *The Unwomanly Face of War*, Alexievich chronicles the experiences of the Soviet women who fought on the front lines, on the home front, and in the occupied territories. These women—more than a million in total—were nurses and doctors, pilots, tank drivers, machine-gunners, and snipers. They battled alongside men, and yet, after the victory, their

efforts and sacrifices were forgotten. Alexievich traveled thousands of miles and visited more than a hundred towns to record these women ' s stories. Together, this symphony of voices reveals a different aspect of the war—the everyday details of life in combat left out of the official histories. Translated by the renowned Richard Pevear and Larissa Volokhonsky, *The Unwomanly Face of War* is a powerful and poignant account of the central conflict of the twentieth century, a kaleidoscopic portrait of the human side of war. THE WINNER OF THE NOBEL PRIZE IN LITERATURE “ for her polyphonic writings, a monument to suffering and courage in our time. ” “ A landmark. ” —Timothy Snyder, author of *On Tyranny: Twenty Lessons from the Twentieth Century* “ An astonishing book, harrowing and life-affirming . . . It deserves the widest possible readership. ” —Paula Hawkins, author of *The Girl on the Train* “ Alexievich has gained probably the world ' s deepest, most eloquent understanding of the post-Soviet condition. . . . [She] has consistently chronicled that which has been intentionally forgotten. ” —Masha Gessen, National Book Award – winning author of *The Future Is History*

A major new account of the Soviet Union at war which charts the development, successes and failures of the Red Army.

The first history of the Soviet home front experience during World War II and of the civilians who bore the burden of total war and played a critical role in the global victory over fascism. After Hitler's invasion of the Soviet Union in 1941, German troops conquered the heartland of Soviet industry and

agriculture and turned the occupied territories into mass killing fields. The country's survival hung in the balance. In *Fortress Dark and Stern*, Wendy Z. Goldman and Donald Filtzer tell the epic tale of the Soviet home front during World War II. Against the backdrop of the Red Army's early retreats and hard-fought advances after Stalingrad, they present the impact of total war behind the front lines in a chronicle of spirited defense efforts, draconian state directives, teeming black markets, official corruption, and selfless heroism. In one of the greatest wartime feats in history, Soviet workers rapidly evacuated factories, food, and people thousands of miles to the east. After long and dangerous journeys in unheated boxcars, they built a new industrial base beyond the reach of German bombers. As the Soviet state reached the height of its power, imposing military discipline and sending millions of people to work thousands of miles from home, ordinary people withstood starvation, epidemics, and horrific living conditions to supply the front and make the Allied victory possible. This book examines the dark and painful war years from a new perspective, telling the stories of evacuees, refugees, teenaged and women workers, runaways from work, prisoners, and deportees. Based on a vast trove of new archival materials, *Fortress Dark and Stern* reveals a history of suffering, sacrifice, and ultimate triumph largely unknown to Western readers.
